

Steven T. Pals

Steven T. Pals is professor of Pathology and head of the Molecular Pathology laboratory at the Academic Medical Centre, University of Amsterdam, The Netherlands. The research themes of the laboratory are "B-cell development and neoplasia" and "Cell adhesion and migration in inflammation and cancer". Our mission is to acquire knowledge required to improve the diagnosis and treatment of B cell malignancies and to develop novel strategies to control inflammation and cancer metastasis by targeting cell adhesion and migration. Subjects: HSPGs,

multiple myeloma, colorectal cancer, signal transduction
