

FEBS Advanced Lecture Course 4th FEBS-MPST 2013

Matrix Pathobiology, Signaling and Molecular Targets
September 26th – October 1st 2013, Kos Island-Greece

Invited & Confirmed Speakers

Renato Iozzo (USA), Vincent Hascall (USA), John Couchman (Denmark), Israel Vlodavski (Israel), Dimitris Kletsas (Greece), Jan-Olof Winberg (Norway), Liliana Schaefer (Germany), Donald Gullberg (Norway), Achilleas Theocharis (Greece), Nikos Karamanos (Greece), Paraskevi Heldin (Sweden), Jeffrey D. Esko (USA), Dick Heinegård (Sweden), Alberto Passi (Italy), Carl-Henrik Heldin (Sweden), Dragana Nikitovic (Greece), Lena Kjellen (Sweden), Kazuyuki Sugahara (Japan), David Birk (USA), Jorge Filmus (Canada), Veli-Matti Kähäri (Finland), Thomas N. Wight (USA), Ralph Sanderson (USA), Peter Friedl (Netherlands/USA), Alan J. Grodzinsky (USA), Themis Kyriakides (USA), Boris Turk (Slovenia), Martin Götte (Germany), François Maquart (France), Muhammad Zaman (USA), Mauro Pavao (Brazil), Steven Pals (Netherlands), Sarah Wilcox-Adelman (USA), Joanna Phillips (USA), Antony Day (UK), Katalin Dobra (Sweden), Efsthios S. Gonos (Greece), Paolo Bonaldo (Italy), Marco Maccarana (Sweden), Jerry Turnbull (UK), Demitrios Vynios (Greece), Ilona Kovalszky (Hungary), Johanna Ivaska (Finland), Li Jin-Ping (Sweden)

Tutorials/Plenary Symposia

FEBS-MPST 2013 will offer oral sessions with invited plenary lectures, general lectures/tutorials, selected talks related to the topics of the presented abstracts, participant poster presentations, panel discussions and speakers' corner.

Plenary Symposia: *Matrix Pathobiology/ Interactions and Functions of Matrix Macromolecules/Glycobiology and Metabolic Regulation of ECM molecules/Matrix-mediated Signaling and EMT/Cell Receptors Signaling and ECM based Nanotechnology/Signaling and Disease Molecular Targeting/Matrix Regulation in Health and Disease* will be introduced and moderated by leading scientists acting as discussion leaders.

The meeting will further cover **topics related** to ongoing development in the fields of:

Cell surface, interactions and signaling
Metalloproteinases and other proteases
Matrix organization and assembly
Cancer Stem Cell Biology, Biomarkers and
Pharmacological Targeting

Organizing Committee

Nikos K. Karamanos (chairman)
Renato V. Iozzo
Dick Heinegård
Vincent Hascall
Dimitris Kletsas
Achilleas D. Theocharis
Chrisostomi Gialeli
